

Simply Beautiful®

Long-lasting color. Simple to choose. Simple to use.

#44

Warm Season

Shade containers don't have to be limited to the same old Impatiens. Mix it up with some unique varieties of Impatiens and foliage plants that really make a statement. This container thrives during the heat of summer, but will require moist soil for the best performance. Feel free to swap out other Alocasia and Rex Begonia varieties you may come across.

24 in. (60 cm)
