Simply Beautiful®

Long-lasting color. Simple to choose. Simple to use.

14 in. (35 cm)

#45 Warm Season

For something fun 'n funky, go for really wacky foliage with an extra splash of color. (It also helps if the container makes people do a double take!) The plants in this combination are pretty low maintenance - only requiring water to keep the soil from drying out during the hot Summer months. You can also switch out any Colocasia or Rex Begonia for the varieties shown here.
